Professor, BVM

Dear Alumni
It is over 30 years, I am teaching 'Bonding of Atoms' in Materials Science. However, I am yet to fully understand the ways alumni bond. However, I feel if the bridges are built, humans connect. This very idea has given a rebirth to our newsletter in its novel form - "ज्ञेत्"!

I wish the theme 'Nayi Umang' of this news letter will attempt bringing 19,000 free electrons back in BVM orbit with new aspirations, new zeal and vigour to our BVM Alumni Association. Let us kindle scholarships in its truest form through "ज्ञेत्" and bring our Alma Mater BVM the same glory that our founders envisioned. I invite you all to have a very strong engagement through "ज्ञेत्" to build a 21st-century engineer of substance and strength.

With your active engagement we will make -BVM a colour of inspiration....!
